

Organization: St. Martin's Hope Works CRT Program

Category: Mental & Social Health

Type: Psychiatric - Therapy & Counseling

Description Comprehensive Recovery Treatment (CRT) Current wait time is 2-3 months. Comprehensive Recovery Team is a program which focuses on helping people with mental illness. Each participant is assigned a community support worker who will work closely in helping them achieve their life goals. This program is of varying length (up to 2 yrs) depending on complexity of needs and will give the client a Community Support Worker as well as access to PSR group therapy and psychiatric intervention. Supportive housing is included as available. Also included a SOAR disability representative. See Priscilla upstairs at St. Martins: 8:30-11:30am or 1-3pm M-Thurs. for consideration.
